Fixing Clamp For Luggage Tray

Fitting Clamp to Cross Bar

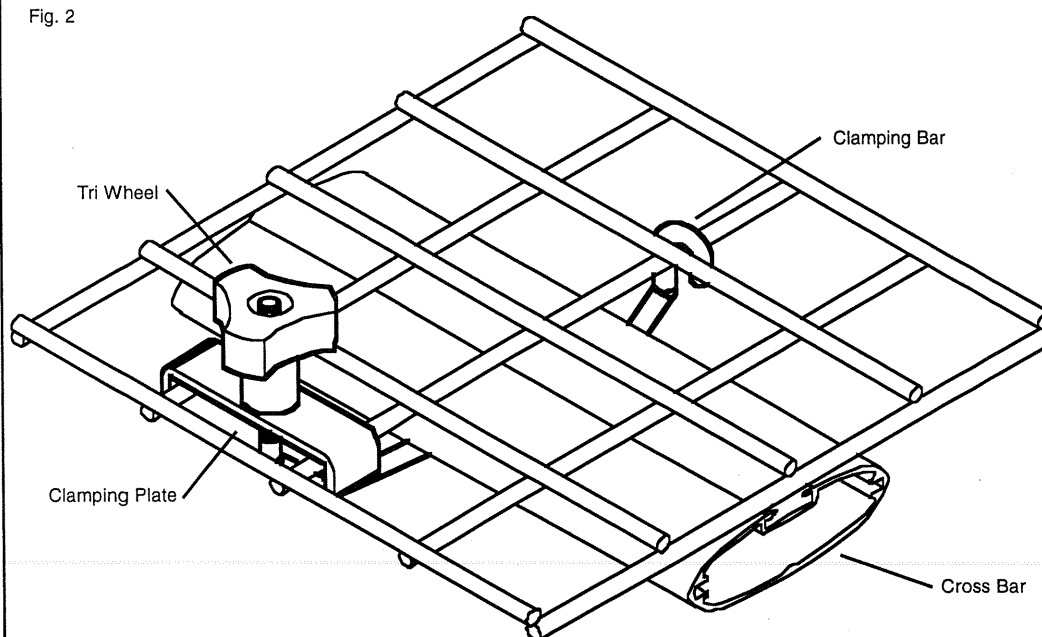

- 1 Place the Luggage Tray on the Cross Bars with the Lower Mesh of the Tray running front to rear and the Upper Mesh running left to right (Fig. 1).
- 2 Hook the Clamping Bar around the Lower Mesh on one side of the Cross Bar. Manoeuvre the Clamping Bar so that the threaded end is on the other side of the Cross Bar. The Clamping Bar is intended to sit diagonally across the underside of the Cross Bar (Fig. 1).

Fig. 1

- 3 Place the Clamping Plate over the threaded end of the Clamping Bar (Fig. 1).

Fig. 2

- 4 Fit the Tri Wheel on to the Clamping Bar. Do not tighten past the Top of the Tri Wheel (Fig. 2). To aid fitment you may have to move the Clamp Assemble a little inboard.
