

Fitting Instructions #3508IS

Toyota Mark X (X120 Platform)

Rear Lower Control Arm Inner Bushes

- Place a ring in two halves or similar to support the space between housing of the arm. Use a hydraulic press to remove the OE bushes from the arms;
- Replace with the supplied steel shell parts. The space between housing must be supported while using the hydraulic press;
- Using the grease supplied, generously lubricate the outside of the steel tube, the polyurethane inside of the steel shell part;
- Push the steel crush tubes into the bushes.
