

Fitting Instructions #0023IS

Nissan 1200 / 120Y

Spring Rear Eye Bushing

This requires kit requires the **original equipment steel shell to be re-used**. Original equipment rubber bushing must be removed by the following procedure.

Note: This procedure must be carried out in a well-ventilated area.

- Use an Oxy-acetylene torch to warm the inner tube, to destroy the rubber bond and remove the tube;
- Repeat this procedure to destroy the bond between the outer shell and rubber bush. Remove the rubber bush;
- Further heating can be used to clean any remaining rubber from inside the original steel shell. Use a wire brush and emery paper to clean the inside of the steel shell;
- Using grease supplied, Grease inside of shell, grease outside of bushing and install in to the shell. Grease new steel tube and install in bushing.
