

AC2300

This dual auto levelling air control kit is a very convenient system easily added to existing air suspension products or as part of a full Airbag Man package.

What it does ? This system automatically maintains the correct suspension height under all load conditions. It provides adjustment for front to rear & side to side levelling & comes equipped with tyre inflation.

KIT INCLUDES:

AC8110 Air Compressor : 12 Volt, Max 200 psi Working Pressure, Provides 76 lpm / 2.70 cfm @ 0 psi, Max Amp Draw : 35 Amps, High Quality.

Compressor Dimensions : 220 mm L x 115 mm W x 175 mm H
Space Required (open at one end for ventilation)
336 mm L x 127 mm W x 222 mm H

Air Tank : 11 Litre (3 Gallon) Storage, Coated inside & out to resist corrosion, Drain valve, Tested to comply with SAEJ10 standards, Max pressure 150 psi.

Auto Levelling : Dual auto height control with delayed response levelling valves.

Tyre Inflation : 7.5 metre (25") extension hose, High quality inflator c/w gauge.

Pressure Switch : Automatically maintains air tank pressure.

Fittings Kit : High Quality 1/4" nylon tubing, Quick fit push-to-connect air fittings, easy to use electrical connections, fuse & holder included.
