SECURE BOTTOM STRAPS TO CARGO BARRIER ASM

1. Locate the open apertures in the cargo barrier mesh at the bottom of the cargo barrier.

2. Place a saddle bush (1) over the cargo barrier frame as shown.

3. Place a pivot saddle (2) over the saddle bush then push the ends together.

4. Place a bottom front position strap (6) in between the saddle as shown then secure with an M10 bolt and nut (3 & 4).
5. Tighten the nut and bolt until the strap is firm in the saddle but can still be pivoted.
6. Repeat the above on the other side.
7. Pivot the long bottom straps across the meshed side of the cargo barrier then secure using Velcro ties (5).
