OA6521M

Rear

Rear suspension conversion, 4 airbag system with auto levelling control

MERCEDES-BENZ

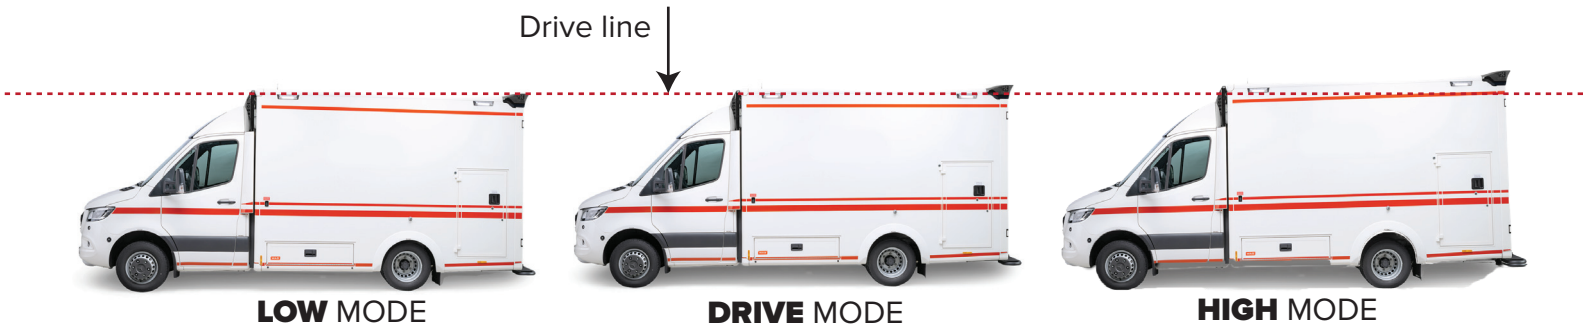

- SPRINTER 5-t 906 & 907 Dual Rear Wheel 511-519 RWD Platform Chassis

* Please check the year and model of your vehicle on airbagman.com.au

FEATURES

- Automatically adjusts ride height to maintain comfort & stability regardless of load
- Three selectable height modes to suit driving, loading, or clearance requirements
- Maintains consistent vehicle balance under varying payloads through active load levelling
- Improves ride quality by absorbing road impacts and reducing harsh suspension feedback
- Eliminates suspension sag to protect chassis, springs, and factory components
- Enhances steering response, braking performance, and overall vehicle control
- Electronically controlled air suspension system for reliable, hands-free operation
- Complete engineered kit with airbags, compressor, tank, control system, and mounting hardware
