

TOYOTA KLUGER 40 SERIES WAGON 08/07 – 02/2017

PART NO.

UNT271

1. In the cargo area, fold the third row of seats forward.
2. Remove the LHS, RHS and Centre most rear pieces of carpet in cargo area.
3. On the passenger side of vehicle remove underfloor storage compartment (two fasteners)
4. Locate single white plug that matches plug on harness provided. Note: don't remove any caps on plugs in back of vehicles.
5. Secure ECU with double sided tape attached.
6. Route five core cable to trailer socket mounting position. Make sure cable is securely attached using zip ties or similar (not supplied) and maintains a safe distance from heat or sharp edges.
7. Insert 10amp fuse to "Towing" fuse location. This can be found in fuse box under vehicle bonnet.
8. Replace all removed parts in the reverse order.
