## FEATURES & BENEFITS OF AIR SUSPENSION

**ELIMINATE** SPRING SAG

**SAFER** LOAD CARRYING

**STABILISE** BODY ROLL

**MAINTENANCE** COSTS LOWERED

**EXCELLENT** RIDE QUALITY

**PREVENTS** BOTTOMING OUT

**ADJUSTABLE** LEVELLING CONTROL

**IMPROVES** STEERING & BRAKING

**REDUCES** TYRE WEAR

## EASY LEVELLING SOLUTION

Install airbags on your vehicle & you'll be able to lift & level up a sagging suspension when **carrying extra or uneven loads.**

Airbags will give your vehicle the **extra support needed for more comfortable, economical & safer driving.**

## HOW DO I INFLATE MY AIRBAGS?

Each kit comes complete with inflation valves for manual inflation which will give you access to inflate & deflate your airbags using a portable compressor, hand pump or service station facility.

## ON BOARD AIR CONTROL SYSTEMS

Airbag Man also have a large range of optional 12 volt & 24 volt **add-on on-board air control kits** to allow quick inflation & deflation via simple flick of a switch technology. Digital Gauges, Analogue Dual Needle Gauges, Air Tanks, Compressors, Pneumatic Switches, Wireless Control, Automatic Levelling, Tyre Inflation Facilities & more.

## WHERE CAN I BUY?

Get in touch with the team at Airbag Man & we will organise supply & or fitment with a local Airbag Man Specialist.
